

# Accessibility Statement

## Premise

Legislative Decree no. 82 of 27 May 2022 transposed Directive (EU) 2019/882 of the European Parliament and of the Council of 17 April 2019 on accessibility requirements for products and services.

## **Guidelines on the accessibility of services, in implementation of art. 21 of Legislative Decree no. 82/2022.**

The decree was published in the Official Gazette (General Series no. 152 of 01-07-2022) and entered into force on 16 July 2022, but the relevant provisions are effective from 28 June 2025.

Zeus Iba S.r.l. is committed to making its websites accessible in accordance with Law no. 82 of 27 May 2022, which transposed Directive (EU) 2019/882 of the European Parliament and of the Council of 17 April 2019 on accessibility requirements for products and services. This accessibility statement applies to <https://www.zeusiba.it/> websites.

## Requirement compatibility status

The <https://www.zeusiba.it/> website is partially compliant with the requirements of Annex A of UNI EN 301549:2018 (WCAG 2.1) due to the cases of non-compliance and/or exceptions listed below. Zeus Iba S.r.l. is conducting, together with its suppliers, an analysis aimed at making the necessary interventions to make the sites in question accessible and compliant with the standard.

# Inaccessible content

**The following content is not accessible because it is not compatible with the underlying harmonised standard EN 301 549:**

- On a page there is a link without link text. | WCAG: 4.1.2
- On individual pages, the contrast between text and background is too low. | WCAG: 1.4.3
- There are titles on individual pages that do not have a caption or contain the air-hidden attribute and are therefore not accessible to screen readers. | WCAG: 1.3.1
- There are invalid air attribute values on a page. These are not recognized by screen readers and therefore do not display correctly. | WCAG: 4.1.2
- On a page, a parent element lacks the appropriate child elements. This can be confusing for screen reader users, as they expect content that isn't there. | WCAG: 1.3.1
- On almost all pages, there are particularly important areas that are marked with the role 'region' but have no labeling at all. This means that screen reader users cannot recognize the purpose and content of the area. | WCAG: 1.3.1
- There are interactive elements on individual pages whose names are not part of the labeling. This makes it difficult to control the website using voice control. | WCAG: 2.5.3

Evolutions made to the code and future ones have been and will be developed in accordance with WCAG 2.2 guidelines. The declaration was drawn up on **30.06.2025**. It was carried out using an assessment that complies with the requirements of Directive (EU) 2019/882 through a self-assessment carried out directly by the supplier. The statement was created with the help of the Eye-Able® technology of **Web Inclusion GmbH**. You can find more information about Web Inclusion GmbH at <https://eye-able.com/it>.

Zeus Iba S.r.l. is conducting an analysis with its suppliers to make the necessary changes to make the sites in question accessible and compliant with regulations. Zeus Iba S.r.l., with the aim of progressively improving the

experience of its web customers, has also proactively implemented the Eye-Able® SaaS software from Web Inclusion GmbH.

The functionality in question allows you to carry out Audits in order to scan individual pages of the site to identify digital barriers, providing compatible support that explains the error and proposes an alternative code to correct it and other tools that allow website users to use important functions that can improve navigation. The company is committed to developing past and future code evolutions in accordance with WCAG 2.2.

## **Feedback and contact details**

Do you have a comment or note about the barriers on this site? Contact us. We'll explain what barriers exist and how we plan to improve our digital environments. We will answer your questions as quickly as possible. Thank you for your feedback. For more info, you can contact us at the following address:

PIETRO GRECHIVia Bibbiena 12/1450142 FIRENZE  
FIRENZE  
[infomail@zeusiba.it](mailto:infomail@zeusiba.it)  
Tel.: 055732511

In the email it will be necessary to indicate: Name and surname; Address of the web page or sections of the website or customer area subject to the report; Clear and concise description of the problem encountered; Tools used (operating system, browser, assistive technologies).

## **AGID**

In the event of an unsatisfactory response or failure to respond within thirty days to the notification or request, the interested party may send a report to AGID:

## **Disclaimer**

The automatic web content check took place on: 30.06.2025. Google Chrome browser version 136.0.7103.92 was used for web content. We guarantee the accuracy of the information provided for the version of the application tested, according to the browser and operating system parameters specified above. If different versions, browsers, or environments are used, a different display is possible from the results shown. For a complete check, it is also recommended that the website operator carry out manual tests
